Short and mid-term economic strategy:

In order to grow the community, adoption and financial attractiveness of the project, we focus on partnering with as many exchange platforms as possible and listing CoinMarketCap & CoinGecko.

Once this is accomplished, we will implement community entertainment tools to keep the momentum going for long-term projects.

Long term economic strategy :

In order to maintain the long-term attractiveness of the project, an automatic burn mechanism will be put in place to offer a burn over a monthly period of time.

The automatic burn will be done via a buy-burn mechanism via the rewards generated on the maintenance wallet, so holders have the certainty that the circulating supply is only getting smaller over time.

Also, smart contracts will be implemented to provide entertaining tools for the community, a portion of the SBD injected into these contracts will be systematically burned.

Zmoney has one motto, mass adoption, automatic and constant burn, and innovation in the small capspace.

In order to reassure the community that Zmoney will be able to survive in the long term, the liquidity of the protocol has been blocked for a period of two years and the Zmoney smart.

Glossary

1. Cryptocurrency: digital currencies that use cryptographic technologies to secure their operation.
2. Blockchain: a system in which a record of transactions made in bitcoin or another
3. cryptocurrency are maintained across several computers that are linked in a peer-to-peer network.
4. Defi: Decentralized finance is a blockchain-based form of finance that does not rely on central financial intermediaries such as brokerages, exchanges, or banks to offer traditional financial instruments.
5. NFT's: Non-Fungible Tokens or NFTs can be bought and sold, much like other assets on the exchanges, but they have no tangible form of their own.
6. Decentralized: controlled by several local offices or authorities rather than onesingle one.
7. Pump and Dump: denoting the fraudulent practice of encouraging investors to buy shares in a company in order to inflate the price artificially, and then selling one's own shares while the price is high.
8. AMA: This is an abbreviation for ask me anything. It's used by people who are opening themselves up to any kind of question.
